Washington, Aug. 27.—Legislation for granting independence to the Philippines when the island people are able to establish a government was up for consideration in the house rules committee today. It was planned to have the committee report a special rule by which the Jones bill could be considered after disposition of emergency legislation and the con-

Representative Jones, of Virginia, who submitted the measure for general approval all through the archipelago, contends that congress can 'not have a better time to consider the measure than at the present session.

The bill would liberalize the scope of self\_government, declare the intentions of the United States in favor of independence, substitute an elective senate for the existing Philippine commission, vest qualified veto powlute veto in the president. The measure is said to bear the approval of President Wilson and Secretary Garrison, of Manuel Quezon, the Philippine resident commissioner in congress and of the Filipinos generally.

# Kaiser Wilhelm Der Grosse is Sunk By British Cruiser Off African Coast; Interfering With England's Traffic

London, Aug. 27.—4:12 P. M.,—The Kaiser Wilhelm der Grosse has been sunk off the west coast of Africa by the British cruiser Highflyer.

He said: "The admiralty has just received intelligence that the German armed merchant cruiser Kaiser Wilhelm der Grosse of 14,000 tons and armed with ten 4-inch guns had been sunk by the H. M. S. Highflyer off the west coast of Africa. "This is the vessel which has been interfering with traffic between this country and the cape and is one of the very few German armed axilliary cruisers which succeeded in getting to sea. The survivors were landed before the vessel sank. The Highflyer has one killed and five

The Kaiser Wilhelm der Grosse was one of the palatial steamers of the North German Lloyd line. At the outbreak of the war she was converted into an armored cruiser and since has been reported active in searching for British merchantmen. It was on this vessel that the late Mayor Gaynor of New York was shot as he was about to sail for Europe.

The British troops fought splendidly and General French considered the prospects in the impending battle satisfactory.

PARIS ANNOUNCES PROGRESS OF ARMY.

(Associated Press Telegram.) Paris, Aug. 27, 3:30 P. M. An official statement issued this afternoon says:

The events of yesterday in the region of the north have neither imperilled nor modified the arrangements made in view of the future developments of operations in the region between Vosges and Nancy.

The Germans have occupied the French cities of Lille, Valenciennes and Roubaix, according to a despatch from Ostend, Belgium, which passed through the hands of the censor at London. All three cities are situated within a few miles of the Belgian frontier and Lille is strongly fortified. Valenciennes is a military station of less importance, while Ronbaix is known chiefly as a manufacturing center.

Exact knowledge of the importance of this movement awaits .official information. Earlier despatches from Ostend quoted a Belgian officer as authority for the statement that the allies had decided not to defend Lille and that its evacuation by the French troops was announced by the mayor Tuesday.

A wireless despatch direct from Berlin early today, brought the official announcement that all the forts at Namur had fallen before the Germans who had also captured Longwy. The army of the Crown Prince, it was added, had repulsed a French attack and upper Alsace, was free of the enemy except at points westward of Kolmar.

The war office at Paris had been silent up to nearly noon. The Belgian operations were asserted to have been completely successful in an official statement that came from Antwerp by way of Paris a little after midnight. Four Belgian divisions from Namun were said to have stopped the southward movement of the German fourth division, after which the Belgians retired on the French line. The forts at Namur were still holding out, it was declared.. This claim regarding the Namur fortifications was repeated later by an English correspondent at Ostend who quoted a Belgian officer who had arrived from Namur. He said that the Germans have destroyed two forts and were still assaulting the others.

It is officially announced at St. Petersburg that the Russian advance in Prussia is proceeding with irresistible force. It has before been stated that the objective point of the main Russian army for the present is Posen. The Germans are represented as having retired to Osterode in East Prussia. A merchant arriving in London from Berlin is credited with the statement that the trains are bringing many refugees to the German capital from Konigsberg, which city, he claimed, civilians had been

Diplomatic relations between Austria and Japan apparently have been formally severed. A dispatch direct from Tokio states that the Austrian ambassador, Baron Mulley de Szentgyorgy, has been recalled. A blockade of the leased territory of Kiao Chow has been declared by the Japanese whose warships shelled a small island off the coast. This island was not defended. This information comes from Tsing Tau. The same correspondent states that so far as can be observed the Japanese have not vet sent a landing party ashore.

Instead of a participant in the wars, he adds, however, that if the Germans should prove a menace to the peace through their standing in the south seas Japan would consult with Great Britain and might co-operate in driving the enemy of the allies out of the Orient.

Keen interest continues in the attitude that Italy will eventually assume. A Rome correspondent of the London Times says that Germany and Austria are bringing great pressure to bear, offering Italy inducements to join them. # UNION MEETING OF MISSIONARY SOCIETIES HELD

GRANVILLE CHURCHES REPRESENTED AND INTER-ESTING PROGRAM WAS RENDERED

Professor Johnson and Family Attending Reunion-Granville News Paragraphs.

Ispecial to The Advocater Granville, O., Aug. 27.—The annual union-meeting of the missionary corganizations of the Granville churches. was held yesterday afternoon in the social rooms of the Baptist church, with a goodly number in attendance, Mrs. D. C. Gilmore, president of the Baptist organization, presided, and the program she presented was interesting, instructive and enjoyable After the opening prayer by Mrs. C. E. Tilbe, the topic of the afternoon, Are Our Native Churches Ready for Self-government?" was discussed by representatives from the Methodist, the Presbyterian and the Baptist organizations. Mrs. J. S. Graham from the Methodist, Miss Lettie Green from the Presbyterian, and Mrs. Jacob Speicher from the Baptist standpoint. reviewed the situation in well prepared papers, the concensus of opinion being that as yet autonomy is better in theory than in practice. A vocal duet, "Jesus, Lover of My Soul" by Misses Imogene Hamblin and Louisa Boggs, accompanied by Miss Glady's Spencer, added greatly to the enjoyment. Mrs. John Ogilvie, a recentrand charming accession to Granville musical circles, also delighted the audience with a vocal selection in which she was accompanied by Miss Helen Gilmore. Mrs. Hamblen offered the closing prayer, after which a social hour was enjoyed. Punch was served by Mrs. E. E. Hopkins and Mrs. J. D. Grissinger, assisted by the young ladies.

### NEWARK WOMAN FINDS LETTER FROM PRESIDENT

A letter written by Woodrow Wilson twenty-nine years ago to his uncle, Thomas Woodrow at Chillicothe, expressing the regret of Mr. Wilson that his uncle could not be present at his wedding at Columbia, S. C., on the 24th of June, 1885, was found in the old Woodrow homested a victim of uraemic poisoning. A at Chillicothe a few weeks ago by Mrs. Walter Ashley, formerly of Newark, who now occupies the place. A strange coincidence in connection with the discovery of the letter is the fact that it was found on the same day Mrs. Wilson died. It had rested with a number of old papers in the attic for over a quarter of a century, to be turned up after its writer had risen to the highest position of his country, ern Chio coal miners and operators and on the day of the death of his are meeting here today in an effort life companion, whose name he men- to settle the strike which has been tioned in the epistle.

President's daughter who replied ing the meeting and it is hoped a thanking Mrs. Ashley for it.

The letter written by Mr. Wilson was apparently in answer to one written by his uncle saying that he could not be present at the wedding. In the old letter, Mr. Wilson stated that he regretted that his Uncle Thomas and Aunt Helen could not be present at p. m., Rev. O. J. Kelch, of Cincinnati, the ceremony. "Your presence on this day would complete my happi- hibition at 7:30 p. m. nss," was the expression used by the

He spoke of having just finished his college work. The letter was written at Columbia, S. C., June 8, 1885, and was signed T. Woodrow Willson.

The discovery of the letter was an accident, Mrs. Ashley having gone to the attic to look for a pet cat which had been missing for a day or two. She came upon a pile of old letters open Monday, Sept. 14. and papers and this one was lying on top of the pile.

### INQUIRIES COMING. FOR IRON PRODUCTS BUT MARKET DULL

Cleveland, O., Aug. 27. The Iron Trade Review today says: Inquiries for almost all kinds of iron and steel products are coming to American manufacturers from many foreign countries. Inquiries for structural steel come from South Africa, India and the Straits settlements.

Buyers of billets in Scotland, England and other countries are investigating the United States market. Ohe east. ern company has inquiries for sheet bars from Great Britain and billets from Italy. Some of the inquiry is to material which would be clearly contraband, such as 40,000 gin barrels and light plates for personal armor, the latter for use in Austria. Chris-tiana, Norway, is inquiring for seam less tubes. Little business with foreign countries has as yet resulted, owing to the uncertainty as to ships, exchange conditions and other complications.

The terro-manganese situation is nct so serious as it was and some shipments are expected to arrive from England at an early date. Prices of manganese ore have advanced sharply. Some railroads, including the Baltimore and Ohio, are specifying liberally on bar contracts. The pig iron market continues dull.

### "THE WATER OF ETERNAL YOUTH

The beauties of the Austrian court ised a lotion which was so effectual in ceeping the face smooth and free from winkles, even in the aged, they named it the, water of elemal youth."

Some one recently has divulged the ectet of this wonderful; though sexedingly simple, wrinkle lotlon, which in her gratitude she has similarly bubbed a preserver of youth. # FLOATING MINE AND BLOWS UP

STEAMER HITS

EIGHT MEMBERS OF HER CREW WERE LITERALLY TORN TO PIECES

Vessel Was Warned All Through the Night by Distant Explosions. From 9 P. M. to 4 A. M.

, lassociated press telegram) London, Aug. 27.-The Norwegian steamer Gottfried has been blown up in the North Sea by a floating mine. Eight members of ther crew lost their lives.

The captain of the Trawler and

three others were picked up from floating wreckage and brought into Shields by the fishing boat Norden. Officers of the latter say they were warned all through the night by distant explosions which followed each other at intervals from 9 p. m. to 4 a. m. At about 6 o'clock in the morning, the lookout on the Norden sighted and picked up a man floating on a plank. He declared that the Gottfried had been blown up three hours earlier and had gone down immediately with eight members of her crew. The dead men had been literally blown to pieces.

Later the captain of the Gottfried was tound floating in a life belt and two others of her completement were rescued from floating wreckage. The Gottfried was owned in Haugesund, Norway.

No one can have done much fishing without realizing that there is an insolvable mystery in fact, there are several insolvable mysteries—connected with "fisherman's luck," For example, if two men sit in oppe-site ends of a boat and use precisely

the same tackle, bait, etc. and are fishing with equal skill, one of them will catch a dozen fish, while the other won't have a bite. They change places and perhaps change rods. The lucky man still catches, the unlucky one doesn't.

Some men will have abnormal luck some days and at other times they can get "nary a bite." Why can some men step forward, jab any old kind of bait on a hook, fling it carelessly into the water and draw up a mess of big fish, while others, fishing scientifically, can't even catch a minnow? We are told that there is a reason for everything-a logical explanation that can be found.

Who will step modestly forward and explain that world old mystery known as "fisherman's luck?" Will any of our readers?-Philadelphia Press.

Effective Bravado.

Lord Cromer's quick and daring methods in dealing with an Egyptian rising are illustrated by the following incident. There were rumors of a native rising. Cairo was almost openly disaffected, and the British garrison was small. His lordship, however, caused it to be known that a regiment was on the way from India, but he was careful not to explain that it consisted of sick leave and time expired men and bandsmen. All the ablebodied soldiers in garrison were ordered to parade all over the town in small parties, and the natives did not take in the fact that they were a sort of stage army-the same men over and over again. The last straw was when Lord Cromer coolly put on flannels and publicly played game after game of tennis. This final piece of bravado nipped the threatened rising in the bud.-London Express.

The Meaning of "Piccadilly." Piccadilly, in London, was so called

from Piccadilly hall, the chief depot-of certain sort of lace much in vogue during the reign of Queen Elizabeth. The lace was called Piccadilly lace from its little spear points, a diminutive of "tica," a pike or spear. In the reign of James I. the high ruff was called a piccadilly, though divested of its lace edging.

"Glossographia," published in 1681, states that "Piccadilly was named from Higgins' famous ordinary near St. James', called Higgins' Piccadilly, because he made his money by selling piccadillies." Another authority, Isaac Taylor, writes, "Piccadilly so called from Piccadilla hall, a shop for the sale of piccadillas, the fashionable peaked or turnover collars."-Manchester Courier.

A Last Resort.

Some days ago a young woman called at the house of a prominent doctor but warm to the touch, and measure a N. Y. CONVENTION and after discoursing on all the topics tell him her ailments. Among other things, she said that she was greatly

troubled by a "sinking feeling." The doctor prepared a little bottle of medicine and gave it to her with mitaken. The woman began to talk, but his part to get rid of her, made for the door. She had just opened it when she turned and said:

"Oh, doctor, what shall I do if this medicine does not cure me?"

"Take the cork," he retorted. "They say that's good for a sinking feeling."

First Poor Laws.

Until well within the nineteenth century the poor men depended almost entirely upon private benevolence. By statute of Edward III., 1349, it was enacted that none should give alms to a beggar able to work. By the common law beggars were to be sustained official statement issued by the war by "parsons, rectors of churches and parishioners, so that none should die for default of sustenance," and by Richard III. proprietors were obliged to distribute a yearly sum to the poor. The origin of the present poor law in \$880,000,000. That is nearly \$125 England is referred to the time of Elizabeth, 1601.

### NEW HIGH PRICE SET FOR WHEAT BY ANGRY BULLS

[ASSOCIATED PRESS TELEGRAM]

Chicago, Aug. 27 .- Belligerent bulls orced wheat to a new high level at the opening of the market today. May wheat opened % to 2% cents under yesterday's close on the sale of a few odd lots to secure profits. At this prices steadied and shot in leaps and bounds to \$1.25, or 3% cents better than the high point yesterday. September opening 🖔 cents down, rose 31( cents over the previous close, while December, after selling 14 cents down, rose, and advanced 5% cents from the bottom. The narrowness of the market was indicated by the fact that very little profit taking was required to send May in the first half hour back from the top to \$1.20 1/2. The fact that no new export sales had been reported, like other routine news was ignored.

Corn was neglected in favor of wheat and oats, but the market advanced after an easy opening in sympathy with the rise in other cereals. Net advances of 14 to 14 cents were registered early.

Oats were independently strong on reports of continued seaboard demand for export and the influence of yesterday's large trade still was felt of a large number of divorce cases Opening prices were 14 to 1/2 cent which have been pending for some higher and early bidding added an-

Provisions were neglected. The few prices posted were 212 under to 71/2 cents over yesterday

### Chicago Grain.

[ASSOCIATED PRESS TELEGRAM] Chicago, Aug. 27.—The excitement in wheat was unabated when the market opened today. May wheat, leading in activity, sold down to \$1 16%, or 2% cents under yesterday's close, but the price in the first 15 minutes of trading was old up to \$1 25. September wheat gained three cents and December four cents.

OF BRITISH WAR OFFICE HAS HAD BAD EFFECT UPON RECRUITING.

London Paper Contrasts This Policy Unfavorably With France's Attitude.

[ASSOCIATED PRESS TELEGRAM] London, Aug. 27.—The military correspondent of the Times comments upon the extreme secrecy with which the British war office is smouding the movements of the British army. He contrasts this attitude with the frankness of the French authorities in issuing periodical summaries of the movements of their army and says that it is to be feared the present policy is having an ill effect upon recruiting. He adds that the nation does not yet

GOVERNING APPLICATIONS OF FOREIGN SHIPS FOR REGISTRY GIVEN TO COLLEC-TORS

Corporate Owned Vessels Must Furnish Original List of Direc-

[ASSOCIATED PRESS TELEGRAM]

Washington, Aug. 27.—Customs collectors today received instructions to govern the disposition of applications for the American registry of foreign built ships under the first of the new war emergency measures. The rules will be applied under regulations soon to be deliberated upon by the president. It the president decides to adopt recommendations submitted by assistant Secretary Sweet, of the department of commerce he will not entirely evoke navigation law publications requiring tnat masters and mates of ships aumitted to American registry be citizens of the United States but will fix a time limit within which foreigners may work in such positions. Instructions to the customs collectors stated that the master's oath of citizenship will be waived in cases where the president orders suspension of the law. The instructions direct that the "ownership and citizenship of owners will be established as in the case of vessels built in the United States. In the case of corporate ownership the applicant will furnish a satisfy certificate as to the names of its directors.

The collectors are warned that when the ship is sold to Americans corporations or individuals to permit of the registry the sale must be unconditional and complete.'

RELIEF BILL TO INCREASE SAFETY OF OCEAN TRAVEL

[ASSOCIATED PRESS TELEGRAM! Washington, Aug. 27.-The sea man's relief bill, aimed at increasing the safety of ocean travelers and easing the burdens of sailors, was up for passage in the house today. The bill conflicts with treaty provisions over wage payments and punishment for desertions and directs the president to notify within ninety days all foreign governments concerned of the termination of agreements on those points. The bill would permit seamen to demand at any port half their wages then due, though not oftener than once in five days.

That would apply to foreign vessels in American ports as well as to American vessels abroad. Any conract stipulation to the contrary is declared void. The United States has treaties as to wages of seamen on foreign ships in American ports with Germany, Austria, France, Belgium, Italy, Denmark, Greece, Netherlands, Norway and Sweden. So much of any treaties as provided for arrest and return of seamen for desertion also is terminated.

The measure would require that all persons aboard American vessels on ocean routes be provided with life equipment, 75 per cent. of it hoate modified in summertime to require total life equipment for 75 per cent. of the persons aboard coastwise vessels, sailing less than twenty miles off shore and for fifty per cent. of the number aboard Great Lakes steamers, with less rigorous requirements where decks would not be submerged if vessels sank.. That conforms largely to principles of the international conference at London. The bill regulates hours of labor at sea by dividing sailors into at least two and three, and firemen into three watches.

When Germany and England went to war one of the first things of the Berlin police was to drive out the correspondents of London daily newspapers. Some of these men, like correspondents of New York newspapers, have lived in Berlin for many years and were well known to the police and the foreign office. But the moment war was declared the sentiment toward them changed. They were hustled forth after spending some time in a jail as British spies and they were glad to escape with their lives. Those shown here went under the protection of the British ambassador who appears with his hat off.

### Readers' View Point

The Advocate assumes no responsibility for the opinions expressed in the column headed "Readers' View-Communications from our readers should be short, plainly written and should be signed though it is so requested. These communithey must be free from abuse or extravagant statements that tend to provoke controversy.

Editor Advocate: -- While I recognize the fullest right and privilege of the Progressive state convention to condemn the treaty with the Colombian government that is now pending in the United States senate. I can not escape the reflection that the esteemed members of that convention did themselves great injustice in echoing Mr. Roosevelt's epithet of "blackmail" which he used in his characterization of that treaty.

From all the knowledge I have of the "taking" of Panama by President Roosevelt I believe that both the matter and the manner of the performance were such that an expression of regret and a substantial reparation are due to the Colombian government, although I don't think there should be any discrimination in favor of Colombian in the matter of tolls for her

But if the sum of \$25,000,000 is too compensation to Colombia for the losses she has suffered from the action of our government-or even if she should not be allowed any compensation whatever-I don't believe that the members of the Progressive convention could point out a single element of "blackmail" in the proposed treaty: nor do I think they would have used or even thought of using such a term in reference to it, if they had confined themselves to

their own vocabulary. What would the Progressives of Ohio think of the treaty in question if they were citizens of Colombia-or citizens of some nation as strong as the United States? What would they say to the proposition that there should be some recognition of the Golden Rule in our dealings with a

weaker nation? Let me close by repeating that the members of the Progressive convention were worthy of something better than the deliverance they made on this question whereby they virtually charge President Wilsons' administration with being a party to a scheme of blackmail against the government it represents. And the voters of that get your foot misery. Ah! how comfortable your feet Get a 25 cent box of "TIZ" now at great or however small their numbers

### RULING AFFECTS FILTRATION PLAN AT ZANESVILLE

fair will be a record breaker.

Columbus, Aug. 27.—Ruling on a question growing out of the Zanesville waterworks controversy, Attorney General Hogan today held that there can be no referendum election on an emergency measure passed by the Zanesville council.

The council had been ordered by the state board of health to install a new mechanical filtration plant. A resolution of council putting this order into effect carried an emergency clause. Advocates of a deep-well system of water supply filed a referendum on the resolution and at the same time initiated a measure calling for deep wells.

The attorney general also ruled that the initiated measure should be voted on in the coming election. His opinion was addressed to Secretary of State Graves.

### **EXHIBITION CAR** AT B. & O. DEPOT IS INTERESTING

Standing on the railroad track near the B. &. O. Depot is a handsome Pullman car fitted up with everything necessary to instruct those interested in the manner and method of securing some rich Indian land soon to be opened for settlement in Oklahoma. The land belongs to the Chowtaw Indian Nation, and will be opened by the gov ernment.

The car is lighted throughout with electricity, and contains United States geological maps and rollos describing every acre of land to be disposed of, making it possible to learn as much concerning these lands as if one were there in person. They are rich in minerals, being known officially by act of Congress Elfreda Gerda and Helene Spangel. as the segregated mineral lands. They are also fine farming and grazjoined the German Red Cross and will ing tracts, and the oil possibilities assist in caring for the injured are very bright, the lands being in the center of a developed oil held and, unlike other similar lands, these are not to be homesteaded, and do not require residence thereon. Neither does one have to go West to secure them, as this can be arranged for at the car now here

The car is sent out by the Real of the president of the eychange, who is ably assisted by five skilled demonstrators who are familiar with the geological formation of the lands tute for the real thing and are there- in question, and who can, in 15 minutes time, by the aid of the government folios, give one a better knowledge of these lands than they could secure in a month were they on the lands without these government maps.
